

MANAV SHARMA

Delhi, India | +91 9354934901 | manavsharma6626@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

MCA student at IIT Patna (IIIT Ranchi collaboration) and an aspiring data analyst with a strong foundation in Python, SQL, and data visualization, plus hands-on experience shipping full-stack, production-deployed data products.

EDUCATION

Indian Institute of Technology Patna, India

Master of Computer Applications (MCA), IIIT Ranchi collaboration

Jan 2026 – Dec 2027

Jagannath University, New Delhi, India

Bachelor of Computer Applications (BCA); GPA: 65%

Jun 2022 – Aug 2025

PROJECTS

Analyze — AI-Assisted CSV/Excel Anomaly Detection Platform [\[Repo\]](#) [\[Live Site\]](#)

Next.js, React, TypeScript, Tailwind CSS, Recharts, Gemini API, Vitest

- Built a full-stack data analysis tool that profiles any uploaded CSV/Excel file entirely client-side, auto-inferring column types (numeric, categorical, datetime, boolean, ID, text) and adapting stats, charts, and narrative accordingly
- Engineered a robust anomaly-detection engine (MAD robust-z + Tukey IQR fences, with a time-aware rolling variant for time-series data) that resists distortion from the very outliers it's meant to catch, unlike naive 3σ methods
- Designed the AI layer as an optional enhancement, not a dependency: a grounded chatbot and plain-English report run on Gemini when available, with a deterministic fallback so the product stays fully functional at zero LLM quota
- Validated correctness with 83 unit/integration tests (Vitest) covering the analysis engine, fallback narrative, and API routes; audited with axe-core for 0 accessibility violations (WCAG AA) across light/dark themes

Owner Finder — QR-Based Vehicle Contact System [\[Repo\]](#) [\[Live Site\]](#)

- Problem: parked-car owners either miss calls from strangers or don't want to hand out their number at all — there was no safe way for someone to reach them
- Design choice: built a QR sticker that opens a simple contact page with no app or signup, and added a lightweight check (last 4 digits of the plate, locked after 3 wrong tries) so only someone actually standing at the car could get through
- Outcome: a live, fully working product — built on Supabase and Vercel at zero hosting cost — complete with a generator tool so anyone else can make and deploy their own stickers

EV Charging Station Demand Analysis [\[Repo\]](#)

Python, SQL, Tableau, Excel

- Identified regions with high EV growth and infrastructure gaps, recommending priority states for expansion
- Merged EV registration, population, and geographic data; built dashboards showing EVs per 1000 people and charging density, supporting policy-level infrastructure insights

Customer Sales Dashboard [\[Repo\]](#) [\[Live Dashboard\]](#)

- Visualized multi-year sales data using Power BI with cleaned, structured regional data to uncover trends and improve product performance
- Enabled faster, data-driven decisions for sales and regional strategy

TECHNICAL SKILLS

Data Analysis & BI: Exploratory Data Analysis (EDA), Data Cleaning, Feature Engineering, Dashboard Design, KPI Tracking, Trend Analysis, Statistical Anomaly Detection (MAD, Tukey IQR), Correlation Analysis

Languages & Tools: Python (Pandas, NumPy, Matplotlib), TypeScript, SQL, Power BI, Tableau, MS Excel (Advanced)

Web Development: Next.js, React, HTML/CSS/JavaScript, Tailwind CSS, Recharts, Git/GitHub, Vercel, Full-Stack Deployment

Databases & Backend: MySQL, PostgreSQL, Supabase (Postgres, RLS, Edge Functions), Gemini API integration

Testing & Platforms: Vitest, Jupyter Notebook, VS Code, Google Colab

CERTIFICATIONS

- Deloitte Data Analytics Virtual Internship — Forage | 12 June 2025
- Data Visualisation: Empowering Business with Effective Insights — Tata | 24 August 2025
- SQL for Data Analysis — 30 Days Bootcamp | 27 May 2025
- Power BI for Data Analytics — 30 Days Bootcamp | 27 May 2025
- Python for Data Science — NPTEL (IIT Madras) | Jul–Aug 2024
- Excel for Data Analysis — SkillUp by Simplilearn | 22 June 2025
- Database Management System — NPTEL (IIT Madras) | Jul–Sep 2025
